EDUCATIONAL INITIATIVES

Chair: Barbara Pasalis
Co-Chair Subcommittee Women’s Health Initiative: Carol Stamas
Members: Martha Driscoll
Lekita Esser
Margaret Sarafoglou

The mission of the Women’s Health Initiative is to focus on critical health issues facing women today. As such, the first educational initiative focused on the leading cause of death in women – heart disease.

The focus for 2019-2020 is on two of the leading killers by cancer in women - Ovarian Cancer and Pancreatic Cancer. Each of the cancers will be discussed on its own with topics crossing over into both.

Committee members have and continue to obtain information on the following topics:

- About Pancreatic/Ovarian Cancer
- Symptoms, Causes, Risk Factors and Prevention
- Early Detection
- Treatment for Pancreatic/Ovarian Cancer
- Living After Treatment for Pancreatic/Ovarian Cancer

Respectfully submitted,

Carol Stamas
